WHAT'S YOUR BIG IDEA?

The unique qualities and characteristics of Platinum Group Metals (PGMs) are present in many technological inventions in various industry sectors such as automotive, electronics, medical etc.

South Africa is home to the world's largest **platinum** reserves and **Anglo Platinum**, the world's leading primary producer recognises the potential that PGM downstream beneficiation offers the local economy.

The company is seeking new, innovative and close to commercialization research and PGM technological ideas that can be transferred into business opportunities and in so doing add value to the PGM economic chain.

The company managing the PGM Development Fund will submit these business proposals for consideration by the investment fund.

Your **“BIG IDEA”** could be our next investment!

We'll reward the best proposal with a risk free capital injection of R300 000!

For details on the competition and how to enter, go to www.pgmdevelopmentfund.co.za

Or contact, Michael Joseph – Anglo Platinum
Tel: 011 373 6788
Email: mjoseph@angloplat.com

Deadline for submission – 30 November 2011
