MAKING INNOVATION MATTER

Innovus is responsible for technology transfer, entrepreneurial support and development, and innovation at Stellenbosch University. We have the full mandate to manage the protection and commercialisation of the University's innovation and intellectual property portfolio through patenting, licensing and the formation of spin-out companies. As part of our commitment to making SU innovation matter, Innovus covers all costs associated with IP protection and commercialisation activities.

SERVICES

- Intellectual Property (IP) protection and management
- IP advice and support
- Research commercialisation
- Entrepreneurial development and support
- Creation of spin-out companies
- Offer free spin-out company incubation at the Nedbank LaunchLab for a maximum period of 12 months
